Amaran Angin Kencang Dan Laut Bergelora Di Pantai Timur Hingga Jumaat Ini

KUALA LUMPUR, 1 Jan (Bernama) -- Angin kencang dan laut bergelora yang kini melanda perairan Kelantan, Terengganu, Pahang dan Johor Timur dijangka berterusan sehingga Jumaat ini.

Menurut kenyataan [Jabatan Meteorologi Malaysia](#) pada Rabu, keadaan angin dengan kelajuan 60km sejam dan ombak melebihi 5.5 meter itu boleh menyebabkan kenaikan paras air laut, serta berbahaya kepada semua aktiviti pantai dan perkapalan termasuk pelantar minyak.

Kenyataan itu juga menyebut keadaan angin kencang dan laut bergelora kategori kedua melanda perairan Sabah meliputi kawasan pedalaman, pantai barat dan Kudat serta Labuan dan Sarawak.

Keadaan angin kencang yang bertiup antara 50 dan 60 km/jam serta ombak setinggi 4.5 meter itu dijangka berterusan sehingga Jumaat ini, kata kenyataan tersebut.

Keadaan ini juga berbahaya kepada semua aktiviti pantai dan perkapalan.

Alert for strong winds, rough seas

KUALA LUMPUR: Third category strong winds and rough seas in the coasts of Kelantan, Terengganu, Pahang and east Johor are expected until this Friday.

A statement from the **Meteorological Department** said the situation might cause winds of 60kph and waves over 5.5 metres high, exposing these areas to high water levels.

The strong winds and rough seas will present danger to beach and shipping activities, including on oil platforms.

Strong winds and choppy seas (second category) are also expected in Sabah (Interior, West Coast and Kudat), Federal Territory of Labuan and Sarawak with winds of 50 and 60kph as well as waves of up to 4.5m.

The situation is dangerous for beach and shipping activities, including fishing and ferry services.

Strong winds and rough seas warning for four states

KUALALUMPUR: The Meteorological Department has issued a third category warning for strong winds and rough seas along the coasts of Kelantan, Terengganu, Pahang and Johor.

The rough weather condition is expected to last until tomorrow.

In a statement, the department said the situation might cause winds of up to 60kph and waves over 5.5m high, and expose these areas to the danger of high water levels.

"Strong winds and rough seas also present a danger to beach and shipping activities, including those on oil platforms," it said.

There is also a second category warning for strong winds and choppy seas expected in the interior and west coast areas and Kudat in Sabah, Labuan, and Sarawak with winds of between 50kph and 60kph as well as waves of up to 4.5m.

The situation is dangerous for beach and shipping activities, including fishing and ferry services, said the department. — Bernama
