Private GPs expected to administer 145k vaccine doses daily from July

Bernama

Published 14 Jun 2021, 11:14 pm

Private medical practitioners involved in the National Covid-19 Immunisation Programme (NIP) are expected to be able to administer 145,000 Covid-19 vaccine shots a day starting July, said programme coordinating minister Khairy Jamaluddin.

He said more than 430,000 doses of Covid-19 vaccine have been given to private medical practitioners registered under ProtectHealth Corp Sdn Bhd for use in the immunisation programme as of last Friday...
