on Monday (June 14)

He said that over 30,000 vaccine doses will be delivered in a week or two.

“The Covid-19 Immunisation Task Force (CITF) will look into its delivery capacity to ensure Labuan gets these 30,000 doses as soon as possible,” said Khairy

The number of active Covid-19 cases in Labuan has seen an exponential rise in the past few days, with new cases reaching over 200 daily.

The island of Labuan has a population of about 100,000, and on June 13, Labuan’s infectivity rate was an RT value of 1.12 - the highest in the country.

At the same press conference, Health Minister Datuk Seri Dr Adham Baba revealed that Labuan’s positivity rate during the last epidemiology week is 13.72% - also the country’s highest.
