Malaysia, which is currently ramping up its vaccination efforts to flatten the Covid-19 infection curve, has added more PPVs of all types, including mega centres, micro centres, mobile units, mosques as well as other places of worship, Khairy had said earlier.

A total of 5,815,575 doses of the Covid-19 vaccine have been administered in the country as of Sunday (June 20).

Other states such as Kelantan have taken similar initiatives to open up temporary vaccination centres at mosques and surau, among others, to make it easier for people to get their vaccination shots.
