KUALA LUMPUR: The Public Accounts Committee (PAC) has proposed that the government fix the ceiling price for Covid-19 vaccination once the Sinovac vaccine is available for sale to the people.

PAC chairman Wong Kah Woh, in a statement today, said the ceiling price, which includes the price of vaccines charged by Pharmaniaga and the costs imposed by private clinics and hospitals, is necessary to ensure the cost of vaccination is appropriate and does not burden the people.

“The committee has taken note that the government will allow the sale of Covid-19 vaccines in the open market beginning August and it is important for the ceiling price for vaccination to be set and announced to the people immediately.

“The committee has also taken note that the price for Covid-19 vaccination has begun to be promoted and the price set is higher than what it should be,” he said.
