KUALA LUMPUR: Malaysia is on the right track to take the country out of the crises caused by the Covid-19 pandemic after achieving its target to administer 300,000 doses of vaccines per day.

Prime Minister Tan Sri Muhyiddin Yassin said a total 313,761 doses of vaccines were administered yesterday.

To date, Muhyiddin said more than 6.5 million of the country's population have been inoculated with one dose of the vaccine while about 2.7 million have been fully vaccinated.

"Looking at such an achievement, the government is optimistic that all the efforts planned (to take the country out of the pandemic-induced crises) are on the right track. Insha Allah (God willing)," said Muhyiddin in a short clip on his official Facebook account today.

- Malaysia target 150,000 RT-PCR samples daily.

The prime minister said the target of boosting the vaccination capacity to 300,000 doses a day was announced when he unveiled the National Recovery Plan on June 15.

He added that the such an achievement is in line with one of the focuses outlined under Pakej Perlindungan Rakyat dan Pemulihan Ekonomi (Pemulihan), that is to accelerate the vaccination rate under the Covid-19 National Immunisation Programme (NIP).

Muhyiddin, in the clip, also thanked the people, especially frontliners and volunteers at the vaccination centres nationwide for their contributions to ensure the success of the largest vaccination drive in the country under the NIP.

He also recorded his appreciation to Coordinating Minister of the NIP, Khairy Jamaluddin, and Health Minister Datuk Seri Dr Adham Baba for the accomplishment.
