"Therefore, some recent reporting concerning the AstraZeneca vaccines' origin is inaccurate," he said in a statement.

National Covid-19 Immunisation Programme (PICK) Coordinating Minister Khairy Jamaluddin was reported as saying that the EU should not discriminate over where AstraZeneca vaccines are produced as the same formula is used at all its manufacturing facilities.

In the wake of reports that the EU would only recognise the AstraZeneca vaccine approved by the European Medicines Agency, Khairy said he would get AstraZeneca to inform the EU that all their manufacturing sites implement good manufacturing practices (GMP).

Rokas said the EU 27 member states have agreed common guidelines for non-essential travel from outside the EU, but may introduce national restrictions based on their epidemiological situation.

"Entry into the EU is in principle allowed to fully vaccinated persons with one of the vaccines authorised in the EU, including those produced in facilities not covered by marketing authorisation in the EU," he said.

He pointed out the establishment of the EU Digital Covid Certificate is to facilitate travel within the EU, and it is a digital proof that a European citizen or resident has been vaccinated against Covid-19, or has received a negative test or has recovered from Covid-19.

"The Certificate is not a prerequisite for travelling in the EU or a compulsory document, but simply a practical tool," he added.

"They need to be aware also that these are likely to change over time depending on the development of the pandemic in both the EU and Malaysia.

Nevertheless, he said, the launch of the EU Digital Covid Certificate now makes possible the formal equivalence of Covid-19 certificates between Malaysia and the EU.

"This possibility will be explored with the competent Malaysian authorities in days to come," he added. — *Bernama*
