The government has spent RM314.05 million for the nationwide vaccination programme as at Aug 30, 2021.

Science, Technology and Innovation Datuk Seri Dr Adham Baba said 83.2% of the total amount was used for rents, utilities, disposable equipment, sanitisation as well as meals for staff involved.

“9.7% of the total was used for monthly token payments for volunteers and safety while 6% was used for data and system integration.

“The remaining 1.1% was allocated for outreach services fees and other services,” he said in the Dewan Rakyat today in a response to Libaran MP Datuk Zakaria Mohd Edris @ Tubau who asked for total expenditure for the vaccination programme.

Separately, ProtectHealth Corp Sdn Bhd CEO Anas Alam Faizli said that up to 19,116,154 vaccination doses, or 47 percent, were administered by Private Medical Practitioner (PMP) & Healthcare NGOs' participation under the National Covid-19 Immunisation Programme (NCIP).

As of Sept 19, Private Medical Practitioner & Healthcare NGOs' contribution to NCIP stood at 88 percent in Kuala Lumpur, 73 percent in Selangor an 60 percent in Johor.
