Altair set to boost M'siawith advanced tech KUCHING: Altair, a converging simulation, high-performance computing (HPC), and artificial intelligence (AI), is now a technology partner of the National Technology and Innovation Sandbox (NTIS), an initiative under the Ministry of Science, Technology and Innovation (MOSTI), led by the Malaysian Global Innovation and Creativity Centre (MaGIC) as the lead secretariat. The onboarding of Altair makes mentorship, consultancy, and technology tools available to startups, small and medium enterprises (SMEs), in Malaysia. The goal is to accelerate development and commercialisation of innovative solutions, be it products or services, thus increasing speed to market, resilience, and competitiveness."Altair is honoured to be a technology partner of NTIS. Being a global technology company, we have a track record of empowering enterprises across industries by customising solutions through data analytics, simulation, Artificial Intelligence (AI) and high-performance computing (HPC) to address unique business challenges," Altair managing director for Asean and ANZ regions, Srirangam Srirangarajan said. "Beyond the technology, it is about helping businesses enhance efficiency, boost return on investment, improve bottomline, optimise resources, and elevate innovation to not only survive, but thrive.
