He declared his assets when he was Minister of Science and Arts Carey: MACC's official website has been published

(Sungai Buloh, 4th Bernama) Although PKR acting chairman Rafizi was the first to declare assets, BN Sungai Buloh candidate Kaili, who served as minister twice after the last general election, said he had already done so .

Carey said asset declarations have always been made after cabinet appointments, and he made declarations to the MACC when he was science, technology and innovation minister.

"The matter (declaration of assets) was also published on the MACC's website when I was appointed minister of science and arts in the previous government."

He, who is also the Minister of Health, said this when asked at a press conference after presiding over the opening ceremony for the new wave of COVID-19 awareness campaigns today.

Rafizi declared his total assets of RM18,853,150 yesterday, becoming the first PKR candidate to declare assets.

Referring to Umno Acting Chairman Datuk Seri Mohd Hassan's statement that Sungai Buloh is a safe area, Carey responded briefly: "During the campaign, I will try my best to reach out to the voters of Sungai Buloh, and I hope God bless."

The media quoted Muhammad Hassan's remarks as saying that Umno decided to send Carey to fight in Sungai Buloh because the local election agency welcomed the minister to fight locally.

On the other hand, with the increasing trend of the Covid-19 epidemic, Carey called on the public to take booster shots as soon as possible.

He also reminded the public and election candidates to self-test and report to MySejahtera if they develop any symptoms or become close contacts.
