NANOMALAYSIA FLEXES BIOMASS INITIATIVE 'BICEP'

KUALA LUMPUR: NanoMalaysia Bhd (NMB) has introduced the Biomass Innovation Circular Economy Programme (Bicep), an initiative for sustainable agriculture by promoting the use of biomass waste materials from agricultural sources to produce high-quality advanced materials and products. Bicep leverages available local biomass to produce high-value nano-scale advanced materials with applications in healthcare, cosmeceuticals, construction and more. – Bernama
