## 杨美盈返科艺部交流 郑立慷对她设下的高标准战战兢兢

(Kuala Lumpur, 8th) The former Minister of Energy, Science, Technology, Environment and Climate Change Yeo Bee Yin returned to the office where he became the Minister 4 years ago today, and communicated with the current Minister of Science, Technology and Innovation, Zheng Likang, to discuss the future development of the Ministry.

Yeo Bee Ying thanked Zheng Likang for his willing ears and wished him greater success.

Yeo Bee Yin served as Minister of Energy, Science, Technology, Environment and Climate Change from 2018 to 2020. She said in a post on Facebook today that she was very happy to return to the original office to visit the new minister and brought back many memories.

Zheng Likang then also posted on Facebook, thanking Yang Meiying for visiting, and at the same time providing valuable advice, which benefited him a lot.

While he was grateful to have a former minister who was willing to help, he was also trembling at the high standards set by Yeo Bee Yin.
