Aiming to be 10th best global drone service provider in five years

KUALA LUMPUR: Meraque Services Sdn Bhd plans to become the world's 10th-best drone service provider in the next five years, said chief strategy officer Rahman Hussin.

He said the drone technology devel-oped by Meraque has given high-added value to users in addition to reducing their

business costs.

Therefore, he is confident that the demand for Meraque's products in the local and international markets will continue to increase in the future.

"Currently, Meraque has a foothold in Indonesia, the Philippines and Cambodia. We expect to penetrate (more) interna-

tional markets in the next five to 10 years," he told Bernama in an interview recently.

Last year, Meraque was voted the world's 19th-best drone service provider by Drone Industry Insight, which is a leading drone market research and analytics com-

Rahman highlighted that one of Meraque's technologies is the hybrid spot-spraying drone developed through the National Technology and Innovation Sandbox (NTIS) programme and in collab-oration with the Malaysian Technology Development Corporation (MTDC). — Bernama
