Salam sejahtera dan Salam 1Malaysia

Pertama sekali saya mengucapkan terima kasih dan mengalu-alukan kehadiran semua jemputan ke **Majlis Perasmian ISO IEC Joint Technical Committee 1 Sub-Committee 27 on Information Technology Security Techniques Meeting** yang akan disempurnakan sebentar lagi oleh Yang Berhormat Datuk Amar Abang Haji Abdul Rahman Zohari bin Tun Abang Haji Openg, Menteri Perumahan dan Pelancongan Sarawak. Izinkan saya meneruskan ucapan saya dalam Bahasa Inggeris.

2.　　　　Good morning and it is a great pleasure to welcome all of you to the **opening ceremony of the ISO IEC Joint Technical Committee 1 Sub-Committee 27 on Information Technology Security Techniques Meeting.** It is heartening to observe the interest and enthusiasm displayed by the huge presence of representatives from the local and international IT industries. We have with us here today **more than 200 participants from 30 countries.**

3.　　　　I would also like **to thank, Yang Berhormat Datuk Amar Abang Haji Abdul Rahman Zohari bin Tun Abang Haji Openg, Minister of Housing and Tourism Sarawak** for taking time from his busy schedule, to officiate this conference. Your presence here Datuk Amar, indicates the commitment and support of the Sarawak State Government and your good self, in our efforts to **promote a culture of quality amongst Malaysians, to make standards an**

accepted component of businesses locally and to achieve global recognition for the nation's products and services.

4.   I am very pleased to inform that **this is the first time the ISO/IEC technical meeting is organized in Sarawak**. MOSTI through the Department of Standards Malaysia, is honoured and privileged to host this meeting here. To our guests, speakers and delegates from overseas, I hope you will have a pleasant stay here.

Ladies and Gentlemen,

5.   **Subcommittee 27 or SC 27 is an internationally recognized centre for information and IT security standards, serving the needs of global business and government sectors with more than 130 published standards.** The experts are from 53 participating and 17 observing member countries, and **the work covers the development of global standards for the protection of information and ICT, which includes requirements, methods, techniques and guidelines to address security and privacy areas with focus on information security management systems, security evaluation, testing and specification, security controls and services, and identity management and privacy technologies.**

6.   Malaysia has been participating actively in the international standard development work as a member of SC 27. Some of the works and recognition, for example; as the **lead editor for ISO IEC 27037 Guidelines for the identification, collection, acquisition and preservation of digital evidence that was published in 2012**. We are also in the process of **translating the latest version of ISO IEC 27001 Information Security Management Systems – Requirements, as well as ISO IEC 27002 Code of practice for information security controls, to the national language or Bahasa Melayu version**. This we believe will accelerate the **adoption of ISMS into the Malaysian industry especially in Critical Network Information Infrastructure or CNII sectors.**

Ladies and Gentlemen,

7.   The SC 27 meetings in Kuching comprise the 50th Working Group meeting for Working Group 1, 2 and 3 as well as 19th Working Group meeting for Working Group 4 and 5. These meetings represent **the highest participation from Malaysia with about 40 delegates**. I hope you will take advantage from the presence of experts from all over the world, to exchange knowledge and experience, as well as to obtain first-hand information on the subject matter.

8.	In conjunction with this meeting, there are also **other events on the side line such as the Sarawak Cyber Security Expo, National Information Security Seminar and Cyber Security Malaysia ISMS Training. These events are being organised to promote Information Security as the standard of practice**. However, the meetings will not be complete without the **Gala Dinner hosted by the Sarawak State Government, Thursday evening**. Again I must thank the Chief Minister for his kind hospitality.

Tuan-Tuan dan Puan-Puan yang saya hormati sekalian,

9.   Mengakhiri ucapan, saya sekali lagi mengucapkan setinggi-tinggi terima kasih atas sokongan padu Kerajaan Negeri Sarawak di bawah kepimpinan dinamik Yang Amat Berhormat Ketua Menteri, usaha gigih Standard Malaysia dalam membuat persediaan dengan kerjasama International Organization for Standardization (ISO) dan International Electrotechnical Commission (IEC), sokongan pihak penaja dan kerjasama semua agensi kerajaan dan swasta yang terlibat menjayakan program ini serta hadirin dan hadirat sekalian.

Semoga program ini memberi manfaat kepada kita semua.

Sekian. Terima kasih.
