"Gunung Kinabalu itulah lambang perjuangan kita. Berdiri megah memuncak awan. Lambang semangat juang yang fokus, berani dan ikhlas"

**YB Datuk Seri Panglima
Madius Tangau**

Tarikh Keramat

28 Julai 2015 merupakan tarikh keramat bagi seorang anak desa bernama Wilfred Madius Tangau apabila namanya diumumkan sebagai Menteri Persekutuan. Pengumuman oleh Dato' Sri Mohd Najib Tun Abdul Razak, Perdana Menteri Malaysia itu telah memberi sinar dan dimensi baru dalam kehidupannya yang sebelum ini hanya berkisar di Tuaran, kawasan Parlimen yang ditadbirnya.

Dari Tuaran Ke Putrajaya

Siapa menduga anak kelahiran Kampung Lokos Tamparuli ini berjaya bergelar seorang Menteri penuh di Putrajaya!!! betullah kata orang, "tuah ayam nampak di kaki, tuah manusia siapa yang tahu". Kepayahan hidup di kawasan pendalaman tidak dijadikan alasan oleh Madius Tangau untuk berusaha keluar dari kepompong kemiskinan.

Sejak zaman kanak-kanak, Madius sedar bahawa satu-satunya peluang untuk beliau mengubah nasib kehidupannya adalah melalui pelajaran. Jadi tidak hairanlah jika anak desa ini mampu muncul sebagai pelajar cemerlang dalam setiap peperiksaan yang dilaluinya sehingga akhirnya berjaya muncul sebagai seorang tokoh yang disegani.

Pendidikan

Madius mendapat pendidikan awal di Sekolah Rendah Kebangsaan Lokos, Kiulu. Di sekolah ini, beliau mula mempamerkan ciri-ciri seorang anak cemerlang apabila muncul sebagai pelajar terbaik sekolah berkenaan dalam peperiksaan darjah enam.

Kecemerlangan beliau diteruskan apabila beliau berjaya melanjutkan pelajaran ke Sekolah Menengah Kebangsaan Ranau hasil pembiayaan Biasiswa Kerajaan Negeri Sabah. Peluang melanjutkan pelajaran itu tidak disia-siakan olehnya apabila beliau muncul sebagai pelajar cemerlang Sijil Rendah Pelajaran (LCE) dan seterusnya melanjutkan pelajaran ke tingkatan empat di Sekolah Tinggi Setapak, Kuala Lumpur pada tahun 1975.

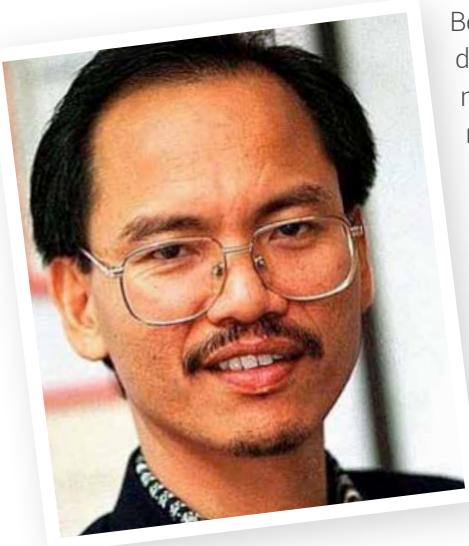

Beliau menduduki Peperiksaan Tingkatan Lima pada tahun 1976 dan lulus *Malaysian Certificate of Education* (MCE) dengan Gred Satu. Kecemerlangan mendorong beliau untuk meneruskan pengajian ke tingkatan enam di Sekolah Menengah Sains Selangor (SMS) yang merupakan sekolah Berasrama Penuh Kerajaan.

Ranjau Berduri

Jika disorot rentetan pendidikan yang dilalui oleh Madius, tidak siapa dapat menduga keperitan yang terpaksa diharunginya untuk menggapai kejayaan demi kejayaan. Tidak siapa tahu bahawa untuk melakar kejayaan dalam hidupnya, Madius Tangau hampir-hampir kecundang dek dihimpit arus kemiskinan.

Keluarganya tidak mampu membiayai pengajiannya di peringkat menengah. Bagi membolehkan beliau melanjutkan pengajian di peringkat LCE, beliau terpaksa bekerja secara sambilan di ladang-ladang dan di kedai-kedai sekitar pekan Kiulu bagi menampung pengajiannya sendiri. Beliau juga biasa berjalan berhari-hari untuk sampai ke sekolah, membina pondok sendiri berdekatan dengan sekolah, malah memasak sendiri makanan hariannya akibat berjauhan dengan keluarga.

Berkat kecemerlangannya dalam pelajaran telah membolehkan beliau memperoleh Biasiswa Kerajaan Negeri Sabah dan ekoran rezeki tersebut, beliau dapat menumpukan sepenuh perhatian kepada pelajaran tanpa perlu lagi bersusah payah bekerja secara sambilan.

Kepimpinan Awal

Sebagai seorang pelajar, kepimpinan Madius mula terserlah melalui penglibatan aktifnya dalam kegiatan ko-kurikulum. Beliau merupakan pendedat Piala Perdana Menteri bagi Kategori Bahasa Inggeris. Beliau juga telah dilantik sebagai Presiden Kelab Biologi, Pengawas Perpustakaan dan dalam masa yang sama beliau juga merupakan ahli jawatankuasa dalam beberapa kelab yang lain.

Beliau berkesempatan menjadi Guru Sementara di SMK Tamparuli sewaktu menunggu keputusan Sijil Tinggi Pelajaran Malaysia (STPM) sebelum melanjutkan pengajian di Universiti Pertanian Malaysia (UPM) dalam bidang Sarjana Muda Perhutanan pada tahun 1979.

Di UPM, Madius bergiat aktif dalam aktiviti pelajar. Beliau merupakan Presiden Persatuan Pelajar Katolik bagi tahun 1981 dan 1982. Sejak di UPM, beliau mula berjinak-jinak sebagai seorang pemerhati yang berminat dengan perkembangan politik di Sabah dan juga di peringkat kebangsaan. Pada tahun 1989, beliau berpeluang melanjutkan pengajian di peringkat Sarjana Pengurusan Pembangunan (MDM) di Asian Institute of Management (AIM), Manila, Filipina.

Kerjaya

Beliau mula membina kerjaya dengan menjawat jawatan sebagai Pegawai Penyelidik di Sabah Forestry Development Authority (SAFODA). Pada tahun 1985 hingga 1994 beliau merupakan Penyelidik Bersekutu di Institute for Development Studies (IDS) Sabah sebelum dilantik menjadi Pengarah Eksekutif di Insitute for Indigenous Economic Prograss (INDEP).

Politik

Madius merupakan Pemangku Presiden, UPKO bermula dari Mac 2014 sehingga kini. Jawatan hakiki beliau ialah Timbalan Presiden UPKO yang dipegangnya bermula Oktober 2013. Beliau juga merupakan Ketua Bahagian UPKO - Bahagian Tuaran (Oktober 2013 hingga kini). Sebelum itu beliau pernah dilantik sebagai Setiausaha Agong UPKO mulai 2002 dan Ketua Penerangan UPKO (2000-2002).

Penglibatan Madius dalam aktiviti berpersatuan mula terserlah apabila beliau dipilih menjadi ahli Jawatankuasa Persatuan Kebudayaan Kadazandusun (KDCA) pada tahun 1986 sehingga 1991. Selepas itu, beliau dilantik sebagai Penolong Setiausaha Agung, persatuan tersebut sehingga tahun 1994. Madius juga pernah menjawat jawatan sebagai Ketua Bahagian - Bahagian Kiulu dan Timbalan Ketua Bahagian UPKO Tuaran. Selain itu, beliau juga merupakan Ahli Jawatankuasa Akaun Awam (PAC) Parlimen ke-13 dan Ahli Jawatankuasa Kelab Penyokong Kerajaan Parlimen Malaysia selama dua penggal. Dalam masa yang sama, beliau juga merupakan Pengurus, Majlis Perundingan Koperasi Parlimen Tuaran.

Anugerah

Kecemerlangan dan sumbangan Madius Tangau kepada masyarakat telah melayakkan beliau menerima pelbagai anugerah. Bermula pada tahun 2003, beliau telah menerima Anugerah Jaksa Pendamai (JP) diikuti Anugerah Ahli Darjah Kinabalu (ADK) pada tahun 2004 daripada Tuan Yang Terutama Yang Dipertua Negeri Sabah.

Beliau juga telah menerima anugerah Panglima Darjah Kinabalu daripada Tuan Yang Terutama Yang Dipertua Negeri Sabah yang membawa gelaran Datuk pada tahun 2005. Pada tahun 2007, beliau telah dianugerahkan Pingat Johan Setia Mahkota (JSM) daripada Yang Dipertuan Agong.

Anugerah terkini yang diterima beliau ialah Seri Panglima Darjah Kinabalu (SPDK) oleh TYT Yang Dipertua Negeri Sabah, Tun Ariffin Zakaria pada 5 Oktober 2015 yang membawa gelaran Datuk Seri Panglima.

Merakyatkan Inovasi

Seiring dengan harapan Perdana Menteri, YAB Dato' Sri Mohd Najib Tun Abdul Razak agar proses inovasi negara turut melibatkan peringkat akar umbi, maka Kementerian Sains, Teknologi dan Inovasi telah mengambil pendekatan untuk "Merakyatkan Inovasi."

"Perkara pertama yang saya lakukan selepas dilantik menjadi Menteri Sains, Teknologi dan Inovasi adalah bertemu dengan YAB Perdana Menteri bagi mendapatkan panduan mengenai harapan beliau terhadap saya dan kementerian. YAB Perdana Menteri menyatakan bahawa walaupun negara kita berada dalam dekad inovasi iaitu dari 2010 ke 2020, namun yang paling penting sekali ialah inovasi itu bukanlah dimonopoli oleh golongan penyelidik, professor maupun pengkaji-pengkaji makmal semata-mata," kata Menteri Sains, Teknologi dan Inovasi Datuk Seri Panglima Madius Tangau.

Madius berkata, Perdana Menteri mahu proses inovasi itu melibatkan seluruh rakyat atau sesiapa sahaja. Perdana Menteri juga memberitahu Madius bahawa sejarah telah membuktikan kebanyakan inovasi ataupun ciptaan-ciptaan baru datangnya daripada orang biasa.

"Mengambil ikhtibar daripada harapan dan panduan YAB Perdana Menteri, maka saya memberitahu beliau bahawa saya turut mempunyai pandangan yang sama. Pendekatan yang saya ambil pada peringkat permulaan adalah memperkasakan komunikasi di peringkat akar umbi. Maka kita mengilhamkan satu tema iaitu 'Merakyatkan Inovasi'."

"Apabila kita mengatakan untuk merakyatkan inovasi bermakna kita mahu rakyat terlibat secara langsung dalam proses inovasi supaya mereka dapat merasakan bahawa Kerajaan menghargai segala cetusan idea daripada mereka," kata beliau.

Madius menerangkan pendekatan yang kedua adalah untuk "rationalised" ataupun "streamlined" organisasi kementerian di MOSTI bagi memudahkan proses menerima cadangan daripada rakyat.

"Ketiga, kita berpendapat bahawa inovasi itu bukanlah terletak di bahu MOSTI semata-mata tetapi mestilah turut didokong oleh kementerian-kementerian, jabatan dan agensi-agensi Kerajaan yang lain. Kita juga akan mengadakan kempen supaya bukan sahaja sains dan teknologi tetapi juga elemen inovasi akan dapat diterapkan dalam polisi-polisi mereka ini".

"Inilah yang dikatakan sebagai merakyatkan inovasi apabila kerajaan meletakkan sains, teknologi dan inovasi di tempat yang tersendiri dan istimewa dalam kalangan seluruh rakyat Malaysia sehingga ke peringkat akar umbi", kata Madius.

**“Pujian ialah dugaan dan ujian.
Kejian ialah pelajaran baru.
Perjuangan penuh dengan pujian
dan kejian. Maka, saya tidak
pernah gentar memperjuangkan
hak rakyat yang diamanahkan
kepada saya”**

Istiadat Pelantikan

Istiadat Pengurniaan Surat Cara Pelantikan dan Mengangkat Sumpah Jawatan dan Taat Setia Serta Sumpah Simpan Rahsia di Dewan Singgahsana Kecil, Istana Negara pada 4 Ogos 2015.

Program Rasmi MOSTI

Majlis Serah Tugas YB Menteri Sains Teknologi dan Inovasi pada 14 Ogos 2015. Dalam Majlis ini YB Datuk Seri Panglima Madius Tangau mengucapkan ribuan terima kasih atas kepimpinan YB Datuk Dr. Ewon Ebin yang telah menerajui MOSTI sejak 2013.

Perasmian dan majlis makan malam sempena Persidangan dan Pameran BioMalaysia dan Bioekonomi ASEAN 2015 pada 17 Ogos 2015 di PWTC, Kuala Lumpur. Menerusi kerjasama Bioekonomi ASEAN, program ini mendorong perubahan industri berdasarkan bioteknologi yang dapat memberikan faedah ekonomi kepada semua.

Melawat tapak pameran BioMalaysia 2015 di PWTC, Kuala Lumpur pada 18 Ogos 2015 dan seterusnya melancarkan beberapa produk keluaran syarikat berstatus Bionexus.

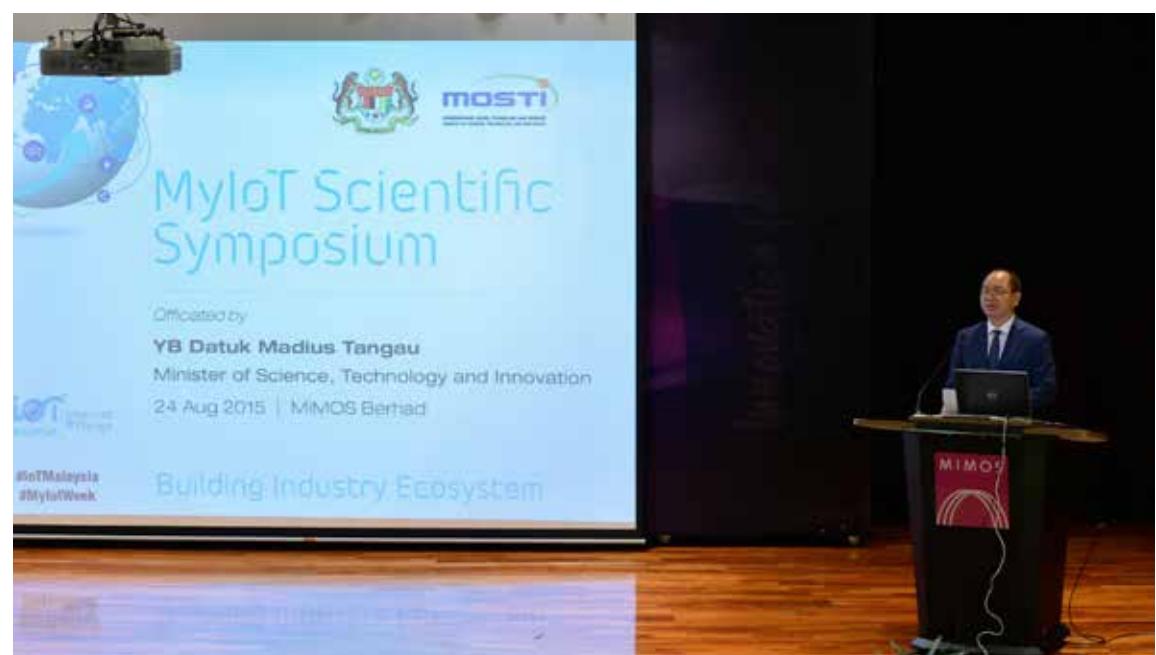

Melancarkan MyIOT Scientific Symposium dan Big Data IOT Technology Accelerator (BITX) Lab pada 24 Ogos 2015 di MIMOS Berhad, Bukit Jalil.

Perasmian ASEAN IOT Innovation Forum di Hotel Istana, Kuala Lumpur pada 25 Ogos 2015.

Lawatan Turun Padang

Lawatan turun padang pertama YB Datuk Seri Panglima Madius Tangau ke kawasan perlombongan bauksit di Bukit Goh, Sg Pengorak dan Pantai Pengorak serta Pelabuhan Kuantan pada 10 Ogos 2015. MOSTI melalui agensinya Lembaga Perlesenan Tenaga Atom (LPTA), Agensi Nuklear Malaysia (ANM) dan Jabatan Kimia telah mengambil contoh sampel daripada kawasan terbabit untuk dianalisa bagi mengesahkan tahap pencemaran seperti yang didakwa pihak media.

Kunjungan Hormat

Kunjungan Hormat H.E. Mr. Hakubun Shimomura, Menteri Pendidikan, Kebudayaan, Sains dan Teknologi (MEXT) Jepun pada 13 Ogos 2015.

Kunjungan Hormat Hon. Jay Weatherill MP, Premier of South Australia pada 20 Ogos 2015. Lawatan ini memberi tumpuan kepada meningkatkan peluang perdagangan, pelaburan dan pertukaran budaya antara Malaysia dan Australia Selatan.

Sambutan Hari Raya

Sambutan Hari Raya MIMOS Berhad di Technology Park Malaysia, Bukit Jalil pada 11 Ogos 2015. MIMOS merupakan salah sebuah agensi paling banyak menyumbang kepada KPI MOSTI.

Majlis Raya @ MOSTI : Dari Desa Ke Angkasa di Dewan Perdana Felda, Jalan Semarak, Kuala Lumpur. Madius mengambil kesempatan yang ada untuk saling kenal-mengenali antara satu sama lain dengan warga MOSTI.

Majlis Sambutan Hari Raya Aidilfitri Kompleks C. Turut hadir ialah YBhg Tan Sri Dr. Ali Hamsa, Ketua Setiausaha Negara dan Tan Sri Mohamad Zabidi Zainal, Ketua Pengarah Perkhidmatan Awam Malaysia.

Sambutan Hari Kebangsaan 2015

YB Datuk Seri Panglima Madius Tangau dan isteri Datin Dr. Jaina Sintian menyertai Perarakan Sempena Sambutan Hari Kebangsaan Tahun 2015 di Dataran Merdeka, Kuala Lumpur.

“Saya menggalakkan pelajar luar bandar untuk menyambung pelajaran ke peringkat tertinggi bagi mengubah nasib diri dan keluarga”

Madius Tangau

Program Rasmi MOSTI

Majlis Perasmian Persidangan CyberSecurity Malaysia – Award, Conference and Exhibition (CSM-ACE) 2015 di Hotel Royale Chulan, Kuala Lumpur pada 10 September 2015.

Lawatan Turun Padang

Lawatan Turun Padang ke Pusat Sains Negara (PSN), Bukit Kiara, Kuala Lumpur pada 10 September 2015.

Selepas melawat PSN, beliau meneruskan Lawatan Turun Padang ke Inno Biologics Biopharmaceutical di Putra Nilai.

Kunjungan Hormat

Kunjungan hormat TYT. Essa Mohamed Al-Mannai,
Duta Besar Qatar Ke Malaysia pada 3 September 2015.

Menerima Kunjungan hormat HE Dr Makio Miyagawa, Duta Jepun ke Malaysia pada 3 September 2015.

Lawatan Kerja Luar Negara

Pada 6 September 2015, YB Datuk Seri Panglima Madius Tangau mengambil kesempatan beramah mesra dengan pelajar Malaysia di Paris dalam majlis makan malam sempena rangka lawatannya ke Ibu Pejabat UNESCO.

Lawatan Kerja ke Ibu Pejabat UNESCO berhubung *International Science, Technology and Innovation Centre for South-South Cooperation (ISTIC)*. Dalam lawatan ini, YB Datuk Seri Panglima Madius Tangau telah menandatangani Perjanjian UNESCO-Malaysia mengenai ISTIC 2015-2021 bersama H.E. Irina Bokova, Ketua Pengarah UNESCO pada 7 September 2015.

Mengiringi Lawatan Rasmi YAB Perdana Menteri ke New York, Amerika Syarikat pada 29 September 2015 sempena *70th Session of United Nation General Assembly* (UNGA) dan menyertai Global Science and Innovation Advisory Council (GSIAC) 5th Annual Meeting di New York Marriot East Side Hotel.

Dalam rangka lawatan yang sama, beliau mengambil kesempatan melawat ISIS Inovasi Ltd, syarikat teknologi milik penuh Universiti Oxford, UK.

“Semua warga Sabah harus menyumbang sesuatu yang terbaik untuk membantu negara Malaysia mencapai impian yang digalurkan dalam Wawasan 2020”

Tangau sworn in as Minister

KUALA LUMPUR: Datuk Wilfred Madus Tanguan has assumed his oath of office as the Minister of Science, Technology and Innovation before Yang di-Pertuan Agong Tuanku Abdul Halim Mu'adzam Shah at Istana Negara here.

The swearing-in took place at the Bilik Stagnghama Kecil (Small Throne Room) of the palace at noon.

Deputy Prime Minister Datuk Seri Ahmad Zahid Hamidi and several other Cabinet Ministers were present at the function.

People's Alliance (PAP) also had its office at a Deputy Minister Nogel said he was expected to be informed of his portfolio today (Wednesday).

Madus and Nogel signed the instrument of oath and secrecy before Chief Justice Tan Sri Dato' Zulkifli and Counsel Secretary to the Government Tan Sri Dr Ali Hassan in the presence of the court that was presided over by Justice Minister Dato' Seri Dr Azmin Ali.

He pledged to give undivided support to Nogel's leadership and implement the government agenda.

He also thanked the Prime Minister

"I will do my best in my ministry as requested," he said.

Meanwhile, the Ministry of Science, Technology and Innovation (MSTI) transferred its delivery of science, technology and innovation to the people to participants in the Science, Technology and Innovation (STI) programme.

Madus told the axis was to move from the ministries to be delivered by STI centres.

"Currently science, technology innovation (STI) involves over 10 higher learning institutions and government link corporations," he said.

Madus said the involvement of the people was in the development of STI in line with the agenda of the National Science Plan (NSP) which boosting the economy of the country.

"With the STI plan given focus on projects under the theme of innovation, it is important for business to contribute to government in improving the country's image," he said.

He also urged all the STI centres to continue working

'Devolution to benefit Sabah and Sarawak'

NOTA KINABALU: The devolution of greater power to Sabah and Sarawak is bound to have teething problems, but its implementation will be for the greater good.

Science, Technology and Innovation Minister Datuk Madus Tanguan said the decision announced by Prime Minister Datuk Seri Najib Razak was appropriate as it would benefit the two states.

Madus, who is also Unit 6.500 m o g u n Kadazandusun Murut Organisation acting president, said there would be issues that needed to be ironed out, and setting a mechanism on how to go about empowering the states.

He said things needed to be planned our accordingly, and this was where the joint federal, Sabah and Sarawak committee that was looking into the devolution process would play its role.

"Take for instance the policy of allowing the State Education Department to approve infrastructure projects up to RM5 million. The di-

rector trainee colleges."

Meanwhile, Energy, Green Technology and Water Minister Datuk Seri Mohd Ongkili said the policy commitment to fill teaching posts with more locals would motivate more youths to take up teaching as a vocation in the two states.

Ongkili, who is also Puteri Sabah deputy president, said the party had long voted out the issue along with the need to have more locals participate in government projects and government link corporations.

Ongkili, who is also Unit 6.500 m o g u n Kadazandusun Murut Organisation acting president, said there would be issues that needed to be ironed out, and setting a mechanism on how to go about empowering the states.

He said this when opening a new longhouse at Kg. Mengkuang 3 in the sub-district of Matunggong here.

Ongkili, however, said there was justification to maintain some percentage, in this case at least 10 per cent, of teachers from other states to be posted to Sabah and Sarawak.

"This is because we believe in integration, and having postings in the permanent teachers and good for encouraging understanding," said Ongkili as per cent as 10 per cent or less (per cent) or Insula (20.2) were 41,935 or 76 per

Malaysia launches home-made drone

KUALA LUMPUR: Malaysia has its own locally-made Unmanned Aerial Vehicle-Remote Sensing (UAV-RS) system to obtain information for monitoring natural disasters, resources management and land clearance.

Science, Technology and Innovation Minister Datuk Wilfred Madus Tanguan said the UAV-RS would improve efficiency in obtaining information of the earth's surface.

"This RM3 million project was first researched in 2008 and developed in 2013. It was fully oper-

ated and 4 minutes of flight time.

"Developed by the Malaysian Remote Sensing Agency (MRS), Multimedia University and Unmanned Systems Technology Sdn Bhd, the system is equipped with radar sensors, a optical sensor system and a ground control station."

Tanguan said the drone, which weighs 18.5kg, could transfer data in real-time and had a service ceiling of 3km within a 300km radius for use

production, natural resources and environment, disaster, national security and land development.

"It is in line with the high-tech infrastructure that has been developed by the government, and the benefits of remote sensing technology can be optimised to deliver high impact on the well-being of the people," he said after the launch of the system in MRS here yesterday.

Set political agenda aside and support initiative, says Hisham

THE setting up of the National Coordinative Committee for Political Financing (NCKMPF) is key to promoting transparency among parties across the political divide.

Those who landed the JKNMPP initiative, which will lead to the setting up of a national plan to promote integrity in political financing since this was in place, it would be imperative for all political parties to observe it. This, they said, should be the case, even if it means disclosuring sources of their funds.

In a press conference vice-chairperson Datuk Seri Hishammuddin Hussein, in welcoming said all

UPKO leaders should disseminate good news in 2016 Budget - Tanguan

"It is such a good move and the prime minister should do it," he said after opening the Umno division meeting in Penang yesterday.

In George Town, Malacca Chief Minister Dato' Seri Dr Haris Haron and NCKMPP endorsed the ruling party's commitment to enhancing transparency.

This shows to promote trans-

parency, maybe they have a certain agenda, and need to twist and turn to see this whole idea through.

"It is such a good move and the prime minister should do it," he said after opening the Umno division meeting in Penang yesterday.

Speaking at the gathering with Tanguan and UPKO leaders here, Tanguan said: "We should spread good news to the people which is continuously being fed with negativity and lies."

Among the good news in the

Budget was the RM300 million allocation for the Ipoh-Sabah programme and the start of the rail-free Taitan-Sabah Pan Borneo highway project costing RM12.8 billion with an toll to be imposed on users of the highway.

Nogel also announced a total of RM3 million for the construction of the new Sabah state assembly building.

Under the 1P3S-3Sabah programme and the start of the rail-free Taitan-Sabah Pan Borneo highway project costing RM12.8 billion with an toll to be imposed on users of the highway.

Nogel also announced a total of RM3 million for the construction of the new Sabah state assembly building.

Under the 1P3S-3Sabah programme and the start of the rail-free Taitan-Sabah Pan Borneo highway project costing RM12.8 billion with an toll to be imposed on users of the highway.
